

STEM Challenge

Name: Annie Brennan

Date: August 26, 2016

Name of Today's Challenge: Ice box challenge

CHALLENGE

Explain today's challenge:

Create an insulator that will hold ice for the longest amount of time.

RESEARCH

Record information needed to understand and complete today's challenge?

Insulators hold the temp. of the materials inside (ice). Conductors allow the temp. to change.

IMAGINE

What ideas do you have for completing this challenge?

Well our group had a lot of different ideas but then I said I about we but cotton balls and it work right now we are winning.
